Hiring Manager

Adler

Dear Hiring Manager,

I am writing to express my enthusiasm for the opportunity to join Adler. I have chosen to apply to Adler because of its innovative approach, commitment to excellence, and its dynamic and inclusive work environment. Adler's vision aligns with my professional aspirations, and I am excited about the possibility of contributing to your team.

Adler should want to work with me because of my proven track record in computer science field and if you give me a problem to solve it during the work-time I am that person who will be happy to do it after that time too if it is not solved till that time, I will not sleep till the problem is solved.

In some aspects, I consider myself to be "crazy" about continuous improvement and learning. If you tell me to learn a new technology within a month I will try doing it as soon as possible so that I can give 100 percent of myself.

Some people experience depression of not getting selected in a company an important truth that very few people agree with me on is the belief that failure is not only an option but a necessary step towards success. I view failures as valuable learning opportunities that pave the way for future achievements.

Thank you for considering my application. I am eager to bring my skills and passion to Adler and contribute to the company's continued success. I look forward to the opportunity to discuss how my background, skills, and perspectives can benefit your team.

Sincerely,

Priyam Srivastava
